Experience

Frontend React Developer - Gazprombank

10.2023 - now

Currently developing a graphical editor for designing user interfaces for banking operations.
I am also actively engaged in refactoring and optimizing legacy code, micro-frontends, enhancing the corporate UI kit.

Frontend React Developer - Alma Services Company

09.2022 - 10.2023

Developed real-time monitoring tools for oil production, optimized interface and graphics performance. Also worked on creating a component library, maintained technical documentation, and conducted interviews.

Frontend Developer - InsidePacket

08.2022 - 07.2023 (part-time)

Worked on the development of a cloud firewall. Designed components for visualizing corporate network data and status. Implemented a web interface for executing remote commands on servers.

Frontend React Developer - Quantum Machines

01.2022 - 08.2022

Migrated an old client application for cloud quantum computing from JQuery/JavaScript to React/TypeScript. Implemented support for communication via MQTT, wrote functional tests using Cypress.

Full-stack React/Node.js Developer - ForaSoft

10.2021 - 01.2022 (internship)

Developed a corporate messenger with video calls. Independently implemented discussion threads under chat messages, sending media files on both the client and server sides.

Frontend	Backend
React	Node
Next.js	Nest.js
Storybook	Postman
Typescript	Websockets
Vitest & Playwright	Microservices

DevOps	LLM
Nginx	RAG
Docker	Python
Grafana	Langchain
Minikube	
Github Actions	

Education

Master's degree
Beijing Institute of Technology

02.2024 - 06.2024

Studied abroad in China
in the "Computer Science and Technology" program.

Master's degree
ITMO University

09.2023 - 06.2025

Currently pursuing a master's degree in "Artificial Intelligence" at AI Talent Hub. Studying LLM, NLP, and designing ML services.

Bachelor's degree

09.2019 - 06.2023

Graduated from the Faculty of Software Engineering and Computer Engineering. I defended my thesis on web interface testing with honors.
I also was the best graduate of the university in 2023.

Mentoring experience

Web Developer Tutor - ITMO University

09.2023 - 06.2024

Supervised laboratory work for second-year students in web programming. Conducted code reviews of their projects and assisted with exam preparation.

Hackathons 2023-2024

1th - "Digital Breakthrough"
International level   *04.2024*

1th - "Digital Breakthrough"
Moscow level   *11.2023*

3rd - "Digital Transformation Leaders"
Regional level   *11.2023*

1th - "Product Hack"
University level   *09.2023*
